### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

**Claim 11 is rejected under 35 U.S.C. 102(b) as being anticipated by Felt (US 3,420,032).** Felt discloses a bridging beam capable of reinstating a pole comprising, an elongate sleeve 6 shaped so as to be able to abut the surface of the pole (the edges of flanges 7 and 8 are capable of abutting the surface of a pole), parallel to the longitudinal axis of the pole, (Fig 1-3) an elongate longitudinally extending raised portion of the sleeve forming a channel shaped cavity, (cavity formed by flanges 7, 8 and web 10), (Fig 1-3) a brace 1 shaped so as to generally fit snugly in the channel shaped cavity, (Fig 2, 3) and securement means 10 for removably securing the brace within the cavity, (Fig 1-3), wherein the securement means 10 comprise a hook member and a stop member mounted in the channel shaped cavity (in opposite sides), the hook member and stop member each extending into an aperture 5 formed in the brace 1, (Fig 1-3).

### ***Allowable Subject Matter***

2. Claims 1, 4-10 are allowed.

3. Claims 12-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

4. Applicant's arguments filed 5/19/2011 have been fully considered but they are not persuasive.

5. In response to applicant's argument that Felt fails to disclose a distinct hook and stop members that extend into an aperture formed in the brace and that Felt does not teach a bridging beam for reinstating a pole. Examiner would like to point out that Felt teaches elements 10 on both sides of the channel shaped cavity and extend into aperture 5 formed at opposite sides of the brace. Furthermore, examiner wants to note that the assembly of Felt is capable of functioning as a beam for reinstating a pole. Thus the claimed limitations are met.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3633

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
